

Working with Hunt Club, Anytime Pediatrics Finds Their New *Chief Technology Officer* in Only 20 Days

Anytime Pediatrics is a part of Anytime Telehealth, a company committed to connecting patients to the healthcare providers they trust most—at any time and from anywhere—using its simple, affordable telehealth software solution. By incorporating this technology into their practice, providers are able to maintain connections with their patients, increase engagement, and improve the quality and duration of each visit.

The Challenge

After raising a seed round, Anytime Pediatrics knew it was the perfect time to bring on the right executives to scale the company. They needed to find an experienced Chief Technology Officer to strategically lead the company’s tech growth and oversee the product and technology teams.

They turned to Hunt Club to take advantage of their extensive Expert network, candidate platform, and past success placing executives at startups.

Hunt Club’s Bullseye Candidate

In less than a week, Hunt Club sourced 90 pre-vetted candidates, then carefully screened 40 of those candidates to narrow the search down to our top 6 recommendations.

Anytime Pediatrics interviewed all 6 of them and hired their top choice—an innovator dedicated to relationship building and elevated pediatric care.

The entire search was done in just 20 days, which exceeded all of their expectations!

“As our business continues to grow, we needed to expand our leadership team and ramp quickly. It was critical for us to find great talent that would be a perfect fit for the role, the company, and the culture. Hunt Club’s process from start to finish was exceptional and I would give them my highest recommendation. We look forward to continuing our partnership with Hunt Club.”
