

Home Chef Enhances its Supply Chain Team with *Operations Technology Product Manager*

Home Chef is a \$700M meal kit delivery provider, recently honored by Entrepreneur Magazine as one of the Best Entrepreneurial Companies in America. In 2020, Home Chef delivered over 10 million meals and expanded their delivery to cover 97% of the U.S. population. Home Chef's mission is to provide customers with a delightful home cooking experience. Customers remain loyal to Home Chef for the same reasons it was founded: Home Chef saves time, reduces food waste, and most importantly, brings people together around the dinner table.

The Challenge

Home Chef wanted to hire an Operations Technology Product Manager to enhance the business' technical capabilities, processes, and operations throughout the supply chain function. They were looking for someone who can:

- Lead strategic thinking on operations technology and work cross-functionally
- Gather and define cross-functional business requirements
- Implement performance management tools and processes which hold tech team accountable to on-time execution and drive towards project completion

Hunt Club's Bullseye Candidate

To find the perfect fit, Hunt Club activated the Expert network to source strategic-minded candidates with experience in operational technology management and software development. After only 5 days on the search, 4 candidates were presented to Home Chef for in-person interviews and the best fit was hired!

Hunt Club's Expert network and proprietary technology provides efficient and effective sourcing and an additional layer of trusted references that makes working with speed and quality possible.
